The Neptones have been a fixture in the Houston scene for a decade now and have released many EPs and compilation tracks, and now we're proud to release their first full length CD. The Neptones are in love the classic sounds of the Ventures, Dick Dale, and Link Wray, but then they push into bold new spaces.</p>		<p>The Demands High Wire <i>High Wire</i> is sexy as hell. This trio sounds like a much bigger band with sultry vocals that have been compared to Chrissy Hynde and Etta James, guitar playing that owes as much to CCR as it does to Television, and powerhouse drumming that ties it all together with a tornado's speed and energy and songwriting that effectively fuses the swing and stomp of '60s soul with the angular edginess of '70s punk and the melodic impact of power pop.</p>

The Balls are carrying surf into bold new dimensions where surf, jazz, and psychedelia meet...</p>		<p>The Hard Luck Heroes <i>Broken Hearts and Shattered Dreams</i> Who are The Hard Luck Heroes?
